

# POLYMER MACHINE

The economically priced stamp making machine

## CONTROL PANEL

The control panel is clearly defined and user-friendly. The menu is easy to navigate, which speeds up adjusting exposure times.

## DOUBLE-SIDED EXPOSURE UNIT

This double-sided exposure unit with 6 lamps on the top and the bottom enables efficient and clean works.

## INTEGRATED SPACERS

The spacers, integrated into the lower glass panel, match the text plate thickness.

## WASH OUT UNIT

The rotating wash out unit has soft brushes ensure gentle washing.

## BLOW PIPE

Used to eliminate the air bubbles that are formed when pouring in the resin.

## POST-EXPOSURE

The plates achieve their optimum final thickness in the post-exposure.

## SELF-ADHESIVE RUBBER

Pad which makes sticking the exposed polymer plate easy.

## PRODUCT DESCRIPTION

Model	Exposure Area	Machine Size	No. of UV Lamp	Power Supply
PM-A3	320x470mm	690x845x760mm	Up: 6 pcs Down: 6 pcs	220V/50 Hz
PM-A4N	200x270mm	450x532x830mm	Up: 6 pcs Down: 6 pcs	220V/50Hz
PM-A4 Exp	200x270mm	450x550x450mm	Up: 6 pcs Down: 6 pcs	220V/50Hz
